903 E Carnation Dr
Sandy, UT 84094

Web Developer with a background in sales and client relations creating hundreds of accounts over a 5 year period and maintaining one of the company's highest retention rates. Looking to apply recent training in front end development including JavaScript and React. Eager to learn new programming languages.

SKILLS

Front-End

- JavaScript
- React
- HTML/CSS

Back-End

- NodeJS
- Express
- Mongoose
- MongoDB

Other Skills

- Git
- JSON
- Sales
- Customer Service

GIT WORK

dev/Websites/leve_up_auto

I built a website for Level Up Auto with React App. The site is fully CRUD, and has user authentication so they can add posts, edit posts, and delete posts. As far as the CSS I used flexbox, and I used flex grid to align the content that I wanted in certain places and sizes.

EXPERIENCE

Polished Image, Layton Utah - Detailing Technician

April 2011 - January 2012

- Thoroughly cleaned cars
