Newly certified Web Developer looking for entry level position to leverage my knowledge of Javascript, React, HTML5, CSS3. As a previous customer facing employee I am comfortable applying my communication to positions that require that sort of skills.

TECHNICAL EXPERTISE

		Other
• JavaScript	• NodeJS	• Git
• React	• Express	• JSON
• HTML5/CSS3	• Mongoose	• Sales
•API	• MongoDB	• Customer Service

EXPERIENCE

Web Developer - *Contractor*

- **Level Up Car Sales**   **11/2017 - Present**
  - URL: levelupcarsales.com
  - Utilizes CSS3 with flexbox, and flex grid.
  - Performed detailed business analysis to determine user interface, data specifications, storage and bandwidth needs before beginning development.
  - Followed industry best practice by utilizing CRUD methodology to create application, define user posting protocols, performs edits and deleting or changing car listings.
  - Coded with security features to allow only users to log in, and make Posts.
  - Conducted extensive end to end testing for posts, edits, and deletes.

- **Utah European Doberman**   **3/2018 - Present**
  - URL: Utah-European-Doberman.herokuapp.com
  - Performed detailed business analysis to determine user interface, data specifications, storage and bandwidth needs before beginning development.
  - Built comprehensive survey to drive targeted email campaigns to increase sales
  - Developed in React JS
  - Continue to leverage best practices utilizing CRUD methodology to create application, define user posting protocols, performs edits and deleting or changing car listings.
  - Currently in development but plan to conducted extensive end to end testing for posts, edits, and deletes.
